About Enterprise Europe Network

The **Enterprise Europe Network** helps businesses innovate and grow on an international scale. It is the world's largest support network for small and medium-sized enterprises (SMEs) with international ambitions.

The Network is active in more than 60 countries worldwide. It brings together 3,000 experts from more than 600 member organisations – all renowned for their excellence in business support.

ENTERPRISE EUROPE NETWORK

Funding of the Network

The European Commission launched the Enterprise Europe Network in **2008**. It is co-financed under the European Union's programme for the competitiveness of SMEs (**COSME**).

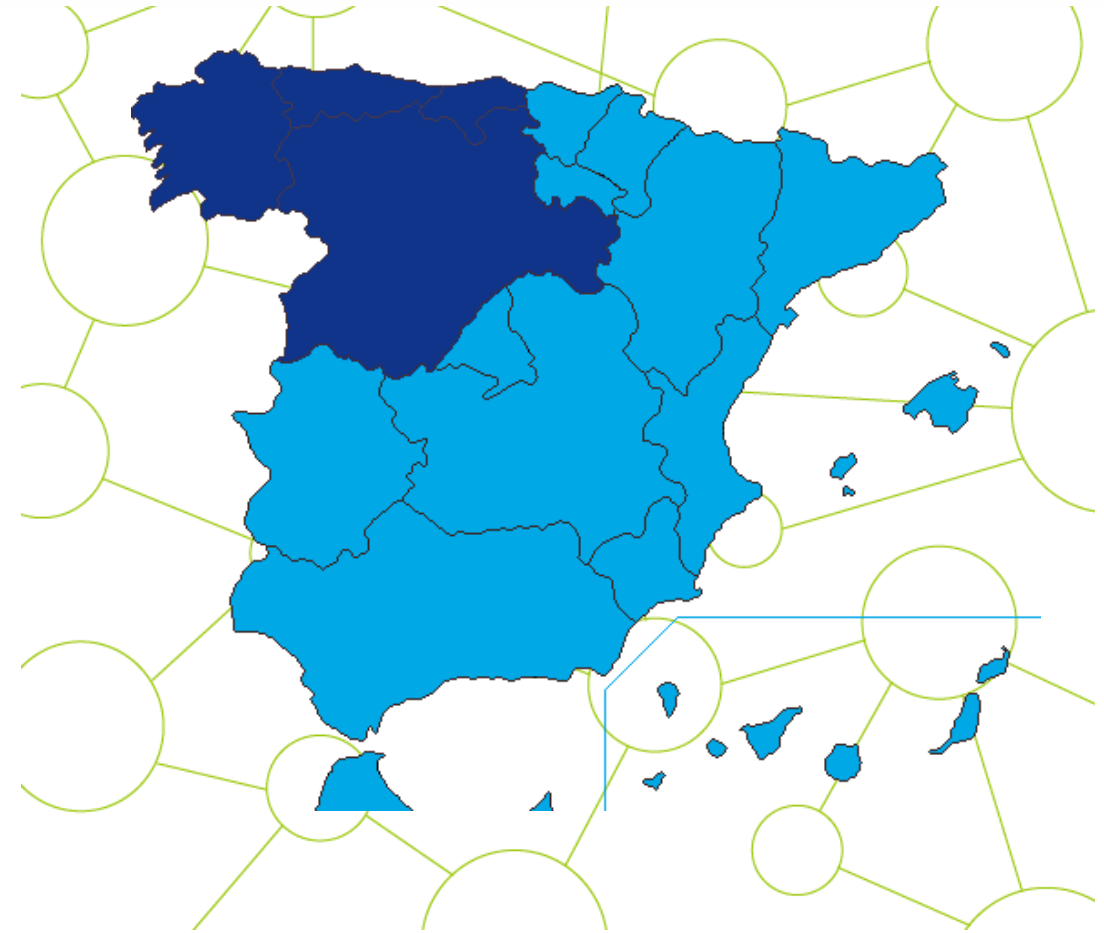

In our region, the Network is co-financed under the **Junta de Castilla y León**

Membership

Network organizations are grouped in regional consortiums all over the world.

ICE represents Castilla y León through the **Galactea Plus consortium**, in which Asturias, Cantabria and Galicia also participate.

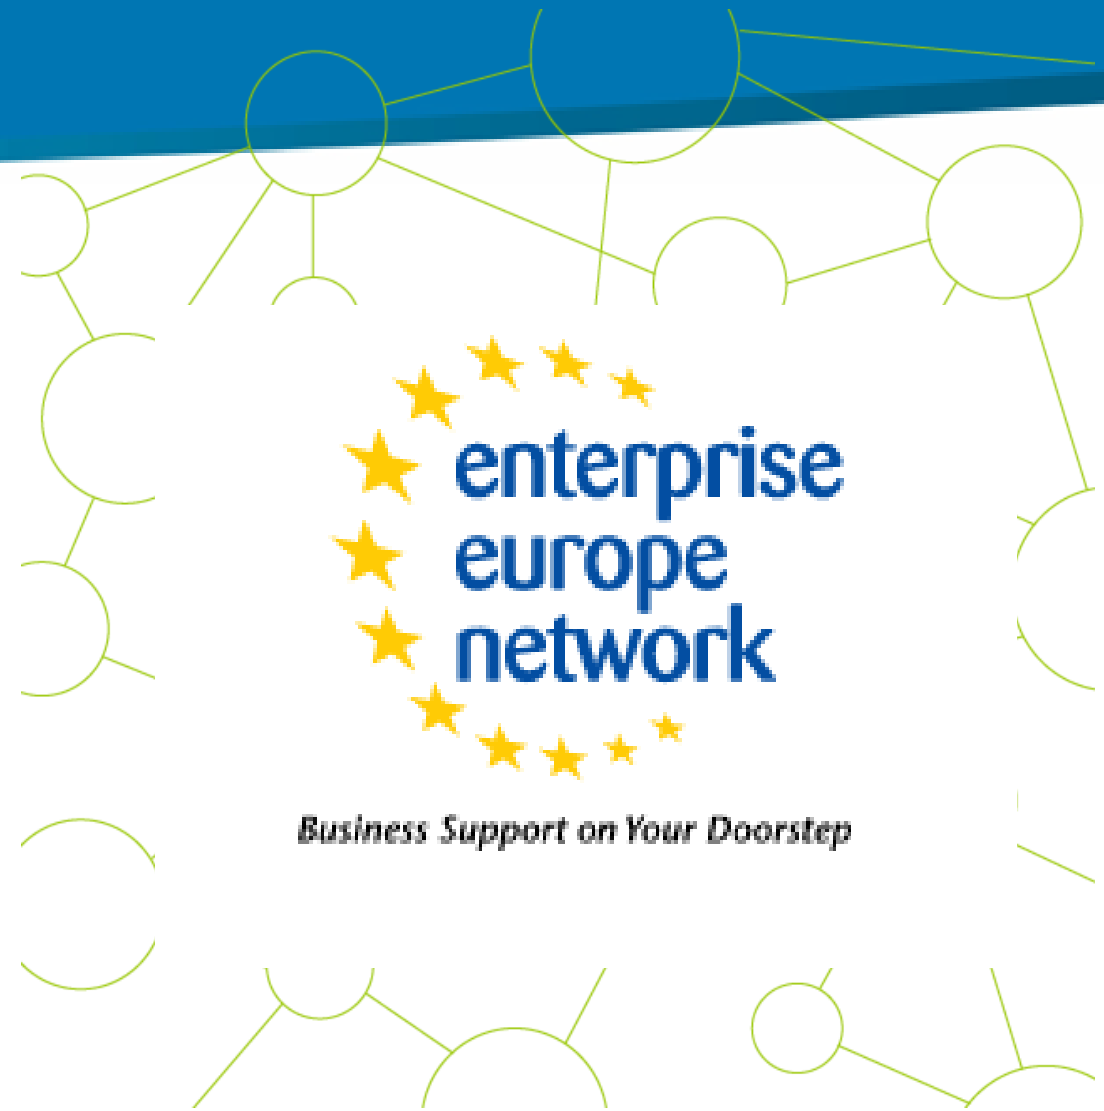

Business services

Teams of Network experts in each member organisation offer personalised services to businesses.

They know the local business environment and have contacts for business opportunities worldwide.

The Network can also offer a targeted approach aimed specifically at your business sector. Its expert groups cover all key economic sectors, from healthcare to agrofood, from intelligent energy to fashion and textile.

For information and advice, [find a local Network contact point](#) in your region.

The screenshot shows the top navigation bar with the European Commission logo and a search bar. Below it, a blue banner reads "enterprise europe network". A secondary navigation bar lists: HOME, THE NETWORK, ADVICE AND SUPPORT, PARTNERSHIP OPPORTUNITIES, EVENTS, SUCCESS STORIES, BLOG, and a user profile icon labeled "Login".

The main content area is titled "Helping companies innovate and grow internationally" and features three icons: a network of hands for "International partnerships", two people for "Advice for international growth", and a lightbulb for "Support for business innovation".

Below these are two highlighted boxes:

- Find a local Network contact point:** "Get in touch with your local Network contact point by selecting the country and city closest to where your business is based. They can help you with advice, support and opportunities for international partnerships." It includes two dropdown menus: "Search EU country" and "Search non-EU country".
- Find an international partner:** "Search for partners to manufacture, distribute, co-develop and supply your products and ideas." It includes a "SEARCH CURRENT OPPORTUNITIES" button.

At the bottom, there is a "Latest articles" section with three featured articles: "ARE YOU READY?", "A sustainable retail - the story of Whiting Stone", and "Agility and Resilience in times of crisis: JPL, the case".

Helping companies innovate and grow internationally

International partnerships

Expertise, contacts and events to connect you with the right international partners to grow your business.

Advice for international growth

Expert advice for growth and expansion into international markets.

Support for business innovation

Solution-driven services to help you turn your innovative ideas into international commercial successes.

Advice & support

Enterprise Europe Network experts provide your business with the **advice it needs to grow and expand into international markets.**

You can get free access to a range of advisory services such as:

- how to **export** your products or services to new markets
- how to **get CE marking** for your products
- the best way to **finance your plans for growth**
- how to **protect your intellectual property assets** in another country

Support for business innovation

The Enterprise Europe Network helps businesses **bring innovative ideas to commercial success on international markets.**

Innovation support services are open to all kinds of businesses. Network experts are there to assess which services are best suited to the specific development phase of your business.

The innovations support services are:

- **Innovation awareness**
- **Innovation capacity building**
- **Innovation management (IMPROVE)**
- Account management services to businesses benefitting from the **EIC Accelerator**

Support for business innovation

Innovation management

IMP³ROVE takes a holistic approach to the assessment of innovation management capabilities and performances as key drivers for competitiveness.

Based on international standard compliant assessment tools and the world's largest **benchmarking** database on innovation management, companies can compare their innovation management capabilities and performances against the average scores of thousands of direct or indirect competitors

You will get a customized report of the Innovation Management Assessment in your company

Benchmarking: 7,320 enterprises

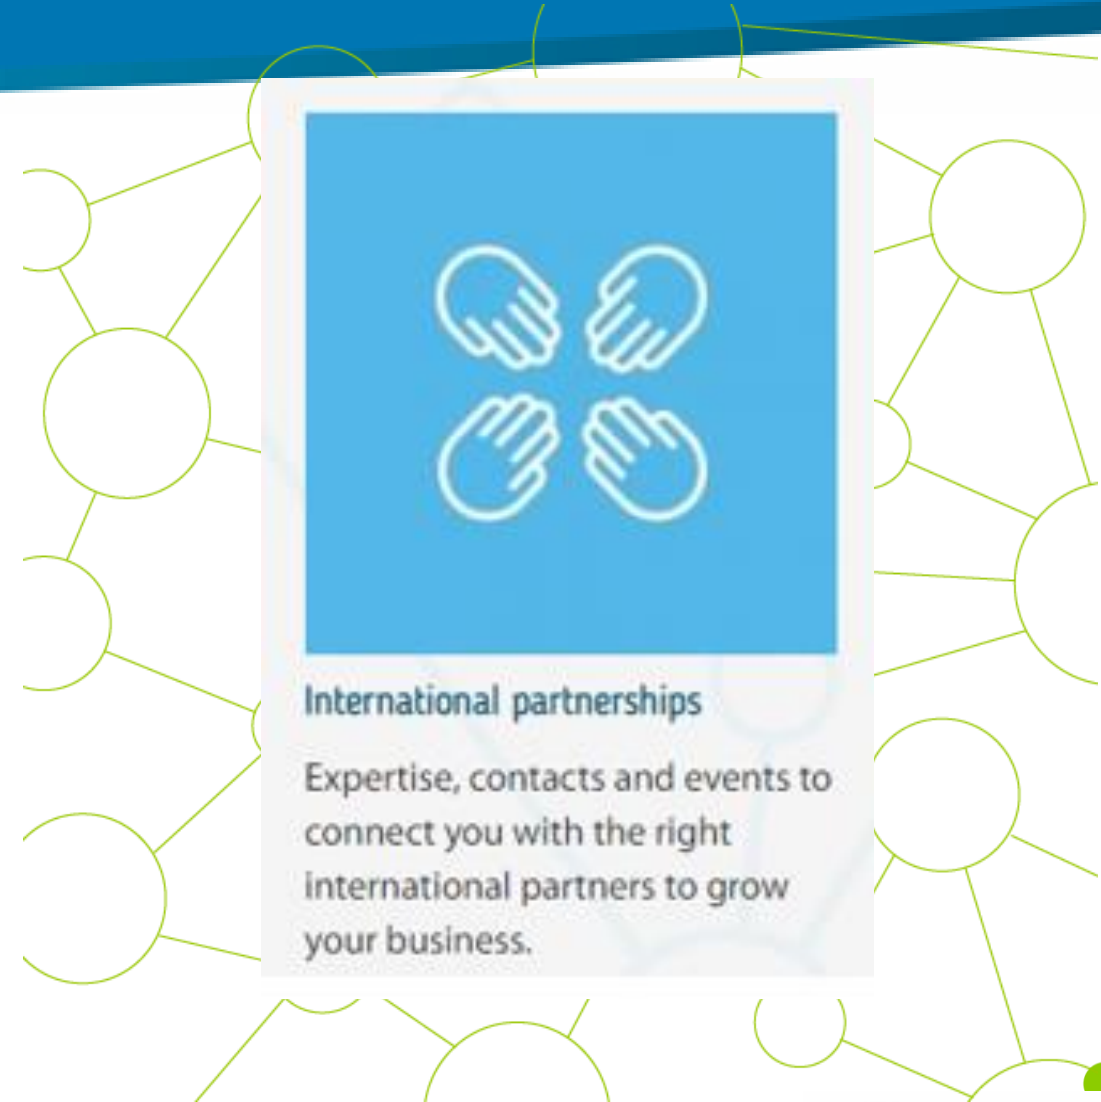

International partnerships

The Enterprise Europe Network can help your business find the right international partners to grow and expand abroad.

The Network has the reach and expertise to find the right partner(s) for you to, **for example:**

- **manufacture or distribute your products**
- **access new markets**
- **find the technology you need** to drive innovation in your business
- **cooperate in research and development projects**

International partnerships

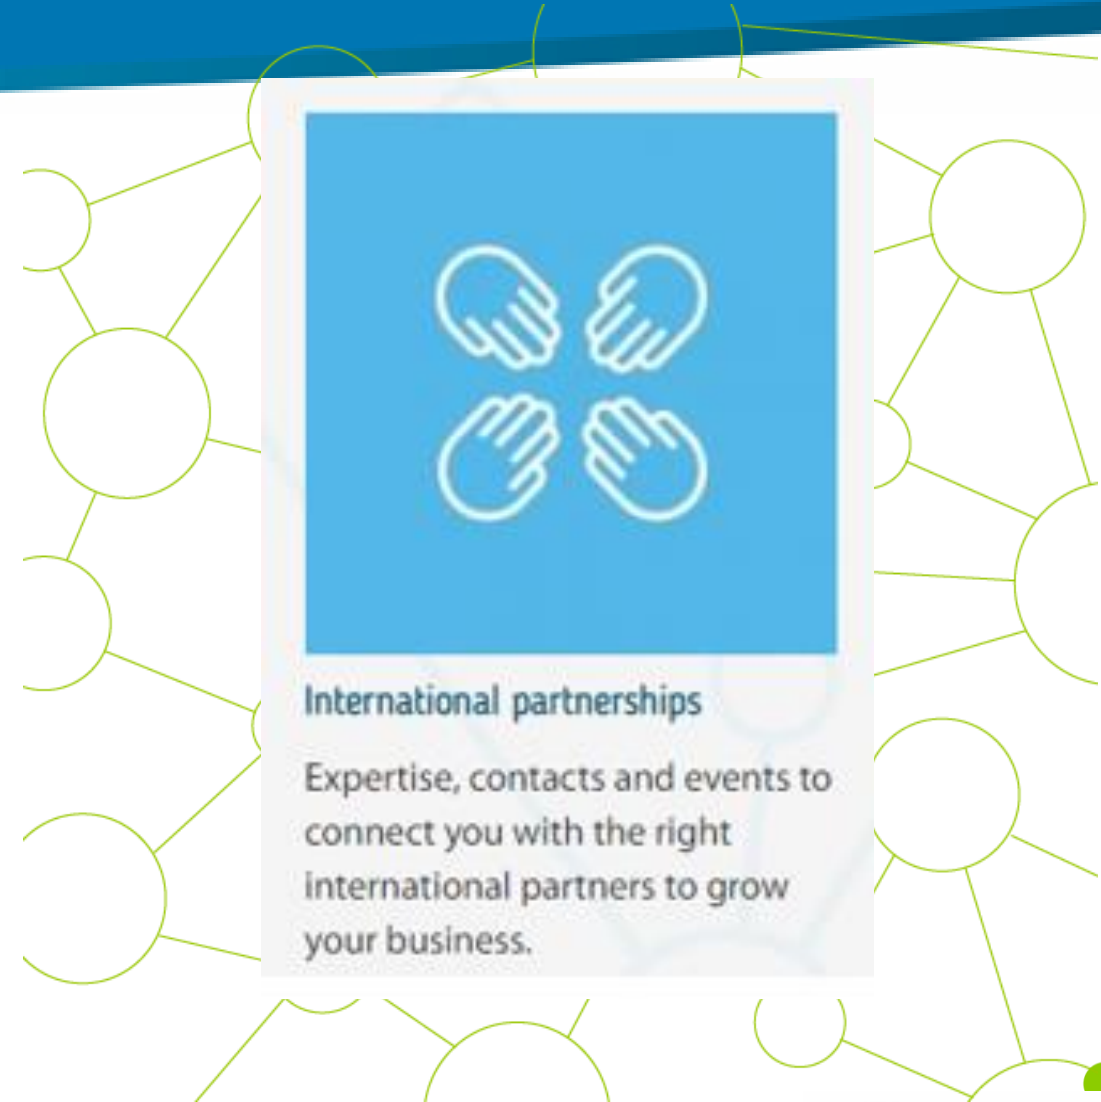

Partnering database

The Network manages Europe's largest online database of business opportunities. It contains thousands of business, technology and research cooperation requests and offers **from companies and research and development institutions.** The database is accessible for free.

You can subscribe to receive alerts on new requests and offers.

Take a look at current opportunities: **5,768**

- **Technology offers or request**
- **Business offers or requests**
- **Research cooperation offers or requests**

Summary

A Romanian company specializes in manufacturing different wooden interior decorations including lampshades, candle sticks, and boxes. Products are manufactured in birch, poplar and beech plywood. The company is interested in identifying international business partners. Cooperation with the partners identified will be based on distribution services agreements.

Description

A Romanian company manufactures wooden interior decorations for office and home use. The company's product portfolio includes:

- lampshades: available in different sizes ranging from 15x15 cm to 40x40 cm;
- candlesticks;
- boxes for tea, tobacco, jewelry, manufactured entirely in wood (including closing accessories);
- notebooks with wooden covers;
- clocks;

Products are manufactured in birch, poplar and beech plywood, based on the company's own original designs. Items are available in small series. Customisation in terms of design, shape, size, and type of plywood used is available for lampshades.

The manufacturing process includes laser cutting, polishing, and treatment against mold and other pests. After assembly, products are varnished and painted using water-based, ecological solutions.

The company's products are currently distributed only nationally. The firm is interested in identifying international business partners for distributing its products. Potential partners include distributors for interior design decorations or lighting accessories, shops and boutiques interested in products with unique designs.

Advantages & innovations

The company offers interested partners: - high quality wooden interior decorations manufactured using quality raw materials with excellent finishing and product durability; - original wooden products manufactured based on the company's own designs; - lampshades are also available as modular items, thus increasing product versatility; - product customization is available in terms of design, shape, size or plywood used; - distributing such products, currently on demand in both European and non-European countries will lead to an expansion of the potential partners' portfolio.

Stage of development

Already on the market

Partner sought

The Romanian company seeks international business partners to support distribution of its products. Potential partners include distributors for interior design decorations or lighting accessories, shops and boutiques interested in products with unique designs. The Romanian company will offer interested partners information regarding products and designs available, including product photographs. The firm will deliver small series products, based on partners' orders indicating the product type, design, size required, where appropriate. The partnership will be conducted under distribution services agreements.
